

# City of Lake Park, MN

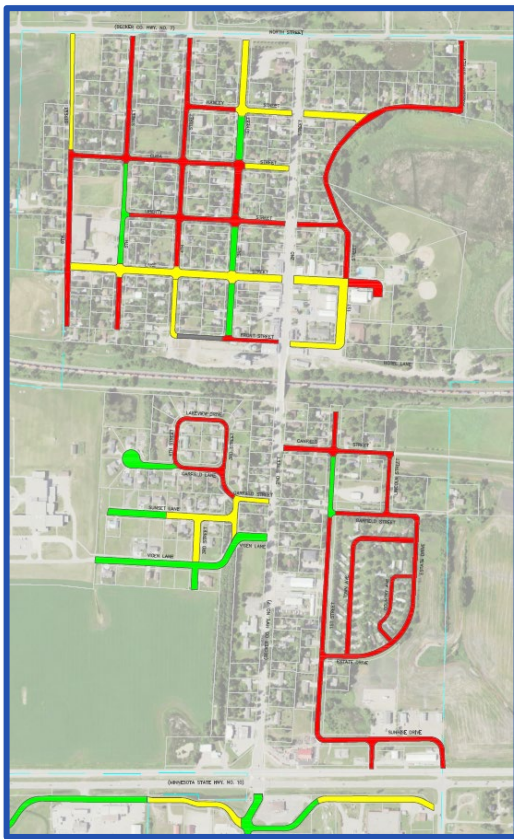

## Local Road Improvements (HF798)

### Enhancing Infrastructure for Safer, Stronger Communities

Project Overview: The project addresses critical infrastructure needs by reconstructing streets that have exceeded their useful life, with many deteriorating to the point where pavement was removed, reverting roads to gravel. This comprehensive initiative will restore roadways to safe, drivable conditions, improve mobility, and support sustained community growth.

#### Project Location Map

#### Road Conditions in Lake Park

Red = Poor | Yellow = Fair | Green = Good

#### Key Benefits/Facts

- 67-percent of roads in poor condition
- Safety Improvements & Reliability
- Quality of life for residents
- Cost Efficiency
- Leveraging multiple funding sources
- Construction could commence yet in 2025

#### Project Financial Snapshot

Funding Source	Amount
State Funds Requested	\$2,000,000
City Match	\$2,000,000
County Funds	\$1,360,000
<b>Total</b>	<b>\$5,360,000</b>
