68.8 and ice edging equipment are not powered by electricity in order to reduce concentrations  
68.9 of carbon monoxide and nitrogen dioxide; and (ii) acquisition of zero-emission ice resurfacing  
68.10 and ice edging equipment. The new or renovated systems may include continuous electronic  
68.11 air monitoring devices to automatically activate the ventilation systems when the  
68.12 concentration of carbon monoxide or nitrogen dioxide reaches a predetermined level; and

68.13 (2) "projects that eliminate R-22," means replacement of ice-making systems in existing  
68.14 public facilities that use R-22 as a refrigerant, with systems that use alternative  
68.15 non-ozone-depleting refrigerants.

68.30 for ice time for female groups by offering up to 50 percent of prime ice time, as needed, to  
68.31 female groups. For purposes of this section, prime ice time means the hours of 4:00 p.m.  
68.32 to 10:00 p.m. Monday to Friday and 9:00 a.m. to 8:00 p.m. on Saturdays and Sundays.

69.2 interest and must maximize accessibility to an arterial highway.

69.3 (g) To the extent possible, all proposed facilities must be dispersed equitably, must be  
69.4 located to maximize potential for full utilization and profitable operation, and must  
69.5 accommodate noncompetitive family and community skating for all ages.

69.18 to grant applications for indoor air quality improvements, including zero emission ice  
69.19 resurfacing equipment, and for projects that eliminate R-22.

69.20 (m) Grant money may be used for ice centers designed for sports other than hockey.
