

# City of Alpha

Pop. 97

**Project Cost: \$14.7 Million**

**Funding Request: \$6.744 Million**

## **Project Summary**

The City of Alpha is seeking financial assistance with wastewater treatment and storm sewer system improvements as the current systems are currently failing and causing public health and safety risks. Backups, localized flooding, and mainline and septic tank failures continue to cause significant challenges for the community.

## **Initiatives To-Date & Funding Gap**

Alpha has secured loan & grant funding through USDA Rural Development and the USEPA, however there is a funding gap of \$6.744 Million to complete the project to recommended standards.

- The community has maxed out its local levy.
- Alpha has recently increased its sewer rates from \$22 monthly to \$42 monthly.

## **Current Infrastructure Conditions**

Pictured Above: Damaged and deteriorated manholes.

## **Looking Ahead & Project Benefits**

As a city with a small taxbase and much of the population on fixed incomes, bonding bill funding for this project provides the necessary and sustainable solutions to ensure safety and community wellbeing.

**On behalf of the City of Alpha and its residents, we thank you for your time and consideration!**
