2024 Regular Session

Subject Department of Children, Youth, and Families Statute Recodification

Bill H.F. 3646

Analyst Danyell A. Punelli

Date May 21, 2024

Overview

This document illustrates the new organization of statutes governing the programs, services, and functions of state government that are transferred to the new Department of Children, Youth, and Families.

Laws 2023, chapter 70, article 12, section 35, instructed the Revisor of Statutes, in consultation with the commissioners of management and budget, human services, education, health, and public safety, to identify any changes to Minnesota Statutes and Minnesota Rules necessary to facilitate the transfer of responsibilities and related operational functions needed to implement the necessary legal changes and responsibilities related to the establishment of the Department of Children, Youth, and Families. The Revisor of Statutes was required to submit to the legislature draft legislation with the necessary statutory changes by February 1, 2024.

Laws 2023, chapter 70, article 12, section 30, lists the powers and duties of the Departments of Human Services, Education, and Public Safety that are transferred to the new Department of Children, Youth, and Families. Powers and duties transferred to the Department of Children, Youth, and Families include administration of the following programs and services:

- the child care assistance program;
- certain Department of Human Services licensing functions;
- certain Department of Human Services program integrity and fraud prevention activities;
- early learning programs including Head Start, early learning scholarships, voluntary prekindergarten programs, early childhood family education, and school readiness;
- SNAP and other food support programs;
- MFIP;
- Northstar care for children; and
- juvenile justice programs.

Given the complexity and volume of the affected statutes, staff decided to accomplish the recodification by moving, or, in some cases, duplicating the affected statutes into seven new chapters of statute organized topically.

Nonpartisan staff reorganized the affected language for clarity and ease of use and removed obsolete language.

This recodification is not intended to change existing policy or to have a fiscal impact beyond the reorganization of executive branch functions and the establishment of a new state agency.
