

Subject Health Care Adverse Incidents; Open Discussion Process

Authors Norris and others

Analyst Mary Davis

Date March 9, 2023

Overview

This bill creates an “open discussion” process that patients, or their legal representatives, can engage in with health care providers and health care facilities after a patient has died or been injured arising from or related to the care the patient received.

Summary

Section	Description
---------	-------------

- | | |
|---|--|
| 1 | Definitions.
Provides definitions for terms used in the bill including “health adverse incident” which means an outcome related to a patient that results in death or physical injury of a patient; “open discussions” which means an open discussion process that includes materials and communication prepared specifically or during the course of the open discussion process; and “health facility” which includes doctors, dentists, clinics, labs, and birth centers. |
| 2 | Engaging in an open discussion.
Provides that after a patient is injured or died the health facility or doctor or provider can send the patient, parent, or legal representative of a patient a notice that they wish to engage in an open discussion process and provide the patient with information about their legal rights. This section provides that a patient or patient representative can agree to participate in the open discussion process. |
| 3 | Confidentiality of open discussion and offers of compensation.
Provides that communications made during the open discussion process are confidential, including offers of compensation to a patient, and that they are not admissible as evidence in a court case or discoverable in a court action. |
| 4 | Payments and resolutions.
Provides that payments made through this process are not considered payments resulting from a demand for payment, a final judgment or settlement, or a |
