Date February 3, 2023

Summary

This bill would require gasoline retailers to report their monthly intermediate blend sales to the Weights and Measures Division of the Department of Commerce.

For purposes of the bill, “intermediate blends” are defined as all blends of ethanol (i.e., “biofuel”) and gasoline in which the ethanol content is greater than ten percent and no more than 50 percent. Retailers would report the number of gallons sold during the previous month, by intermediate blend type (e.g., E15, E20, E30, etc.).
