

# H.F. 1621

As Introduced

**Subject** CelluComp Grant

**Authors** Van Binsbergen

**Analyst** Megan Mullenbach

**Date** March 21, 2025

## Summary

This bill would appropriate \$10,000,000 in fiscal year 2026 to the Minnesota Department of Agriculture for a grant to CelluComp, a Scottish company that produces plant-based packaging and works on the development and commercialization of sustainable materials. This grant would specifically support CelluComp's commercialization of fiber-based barrier packaging to reduce the usage of PFAS in packaging.
