

Subject Modifying veterans and human services data provisions

Authors Rehrauer

Analyst Jeff Diebel

Date March 10, 2025

Summary

This bill extends the Department of Veterans Affairs' (MDVA) read-only access to MAXIS, which is a computer system managed by the Department of Human Services that is used by state and county workers to determine eligibility for public assistance and services. The proposed expanded access to MAXIS is intended to streamline the process to verify eligibility for, and enroll veterans on, the Minnesota Homeless Veteran Registry.
