

Subject Modifying MA payment methodology for certain enteral nutrition and supplies

Authors Bierman and Schomacker

Analyst Danyell A. Punelli

Date March 24, 2025

Overview

This bill modifies the medical assistance (MA) payment methodology for certain enteral nutrition and supplies and makes technical changes to the section of statute governing reimbursement for MA basic care services.

Summary

Section	Description
---------	-------------

1	Reimbursement for basic care services.
---	---

	Amends § 256B.766. Modifies the section of statute governing reimbursement for MA basic care services by breaking the section into subdivisions, making conforming changes, and removing obsolete language. Modifies temporary rates for enteral nutrition and supplies extending the sunset date from June 30, 2025, to June 30, 2027. For medical supplies and equipment payments based on the manufacturer's suggested retail price methodology, requires the commissioner to establish the payment amount on an annual basis for enteral formula, low profile feeding tubes, and feeding tube extension sets.
