

Subject Expanding the scope of projects subject to prevailing wage requirements

Authors Coulter

Analyst Justin Cope

Date March 28, 2025

Summary

This bill would expand the definition of financial assistance for the purposes of prevailing wage requirements so that it would also apply to certain multifamily units financed with increment from a tax increment financing district. It would also expand the definition of projects subject to prevailing wage requirements to include projects owned by local governments and eligible for sales tax exemptions for construction materials.
